

Parents are at a loss !

The pragmatic approach

Which diets?  
Which supplements?

Which treatment?

Laboratory Analysis,  
Yes  
BUT!

The dieticien  
May not recommend  
Without the consent  
of the M.D.

The M.D.  
No experience with autism  
Which analytical tests?  
When performed by a special labs  
The results leave perplex  
It is Chinese

Standard laboratories  
No comments  
No recommendations  
It is  
Chinese
